

PHP – Technical Bulletin

Bulletin Number: 210201

Subject: PH20A and PH40A Main Wiring Connections

Issue Date: Feb. 2, 2021

Scope: PH20A and PH40A Heaters

Complaint:

Original manuals have incorrect wiring diagram.

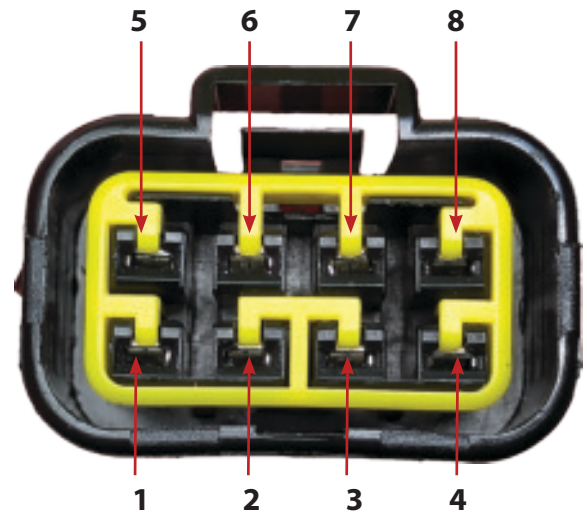

Resolution:

The following diagram shows the correct wiring connections for the main harness.

Note: There are no corresponding numbers marked on the connector. Numbers are for reference only.

Open End View Of Main Heater Harness Connector (Harness Side)

Terminal	Wire Color	Function
1.	White	Switch
2.	Blue	Switch
3.	Yellow	Fuel Pump
4.	Red / White	Main Power “+”
5.	Red	Switch
6.	Green	Switch
7.	Yellow	Fuel Pump
8.	Black / White	Main Power “-”

Corrective Action:

Future manuals will be modified to include these instructions.
